Coffee with the Dean
ENG 285/287
Coffee with faculty and the Dean of Engineering from 9am – 10am

BBQ
ENG Courtyard
Please join us for a BBQ from noon to 1:00 pm in the engineering building courtyard. Be sure to pick up your ticket when you visit one of the labs or presentation rooms. You’ll need a ticket to participate.

Engineering Student Success Center (ESSC)
ENG 344
The ESSC provides a wide range of services to advance student success, including general education advising, identifying campus resources for success, transfer advising, peer advising, and graduation planning. If a student is unsure where to go for assistance, the ESSC is a great place to start.

MESA Engineering Program (MEP), Women in Engineering, and other diversity organizations
ENG 366
The next decades will see increasing need for new engineering, science, math, and technology professionals, particularly from student pools with diverse backgrounds. Come and speak with students and staff of MEP as well as student members of affiliate student organizations: the Black Alliance of Scientists and Engineers (BASE), Society of Latino Engineers and Scientists (SOLES), and Society of Women Engineers (SWE). We will also discuss programs and events that will help you succeed as an engineering student at San José State University.

Student Organizations
The College of Engineering hosts over 40 student clubs and organizations from student chapters of professional associations to groups with the mission of building a project for competition. Members of these organizations will be volunteering and stationed throughout the building, some at specific tables representing their clubs, others participating in programs and sessions.
Department Presentations
10am & 11am

**Aerospace Engineering**
Student Panel & Student Projects
Room 164

**Aviation Program**
In Industrial Studies Building | Room 133

**Technology Program**
In Engineering Building | Room 103

**Biomedical Engineering**
Room 340

**Chemical Engineering**
Room 339

**Materials Engineering**
Room 395

**Civil & Environmental Engineering**
Hydraulic Flume
Room 150

**Computer & Software Engineering**
Room 325

**Electrical Engineering**
Student Panel & Student Projects
Room 376

**Industrial & Systems Engineering**
Room 194

**Mechanical Engineering**
Room 341 @ 10am
ME Student Panel | Room 341 @ 11am

**General Engineering**
Room 393

Open Labs & Demos
9am – 1pm

**Aerodynamics & Propulsion Lab | Room 107**

**Aviation Simulation Lab | Room 133, Industrial Studies Building**

**Manufacturing Systems | Room 101, Engineering Building**

**Biochemical Engineering Laboratory | Room 109**

**Biomedical Engineering | Room 221**

**Biomaterials, Failure Analysis, Composites | Room 223**

**Biotechnology and Renewable Energy | Room 205**

**Microfabrication and Photovoltaics | Room 311**

**Biomedical Engineering Clubroom | Room 182**

**Student Projects | Room 487**

**Student Projects Lab | Room 376**

**Human Factors Engineering | Room 494**

**Manufacturing Information Systems | Room 194**

**Machine Shop | Room 123**

**Mechatronics Lab | Room 125 with 3-D printing demo**

**Engineering 10 Lab | Room 393**
