Video Importing and Editing

For more information please see the video tutorials.

Importing Video

• Step 1: Right click on the Media section on the right.

• Step 2: Choose “Import Media” and double click the video you will like to use.
Trimming Video

- Step 1: Go to the bottom tracks to do the trimming.

- Step 2: Use the two tag (green and red) besides the playhead to enclose the region you want to trim.

- Step 3: Click on the scissors icon or short cut (Ctrl + X) to trim the video.
